ModernLMS

Open Source & Custom Branded
Fully Managed or On Premise LMS

About ModernLMS.

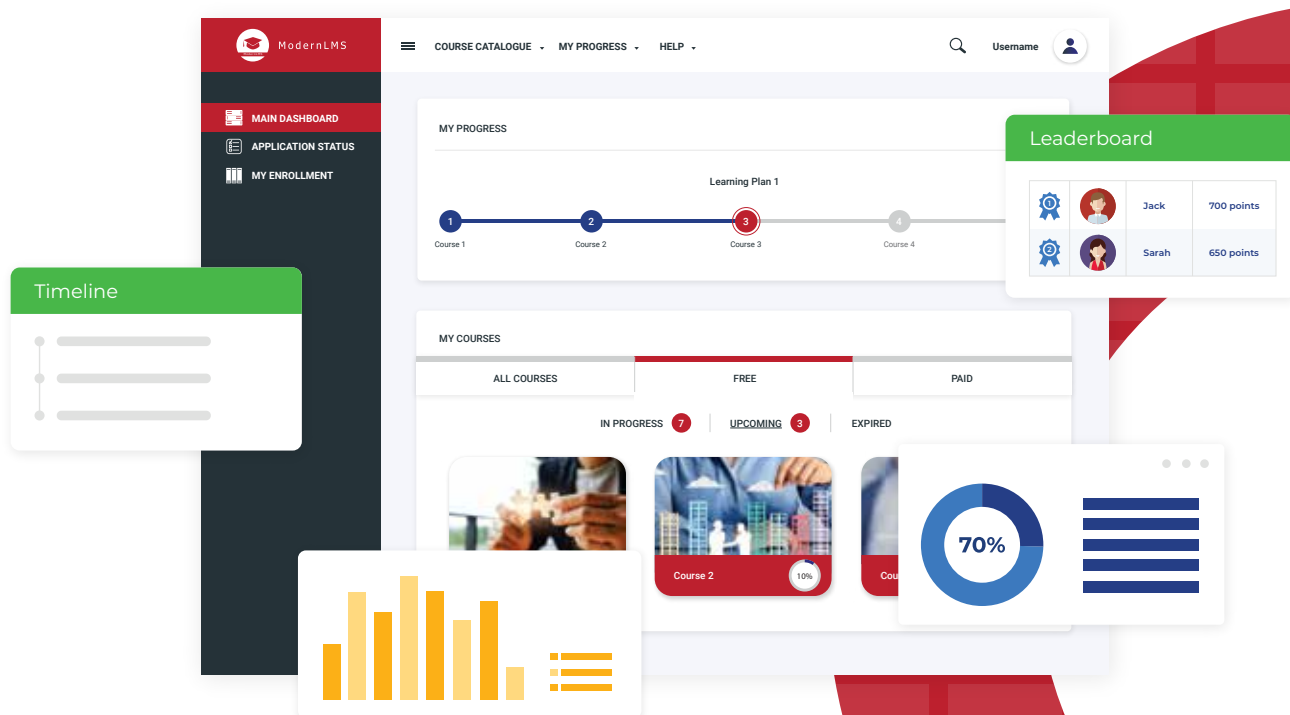

Our learning platform aimed at providing a single robust, secure and integrated system for educators, administrators and learners to create personalised learning environments.

The platform is built on open source resources that power tens of thousands of learning environments worldwide, trusted by large and small institutions and organisations like Shell, London School of Economics, State University of New York, Microsoft and Open University.

The core LMS's worldwide numbers of more

than **90 million** users across both academic and enterprise level usage makes it the world's most widely used learning platform.

With over **12 years of development** guided by social constructionist pedagogy, our LMS delivers a powerful set of learner-centric tools and collaborative learning environments that empower both teaching and learning. A simple interface, drag-and-drop features, and well-documented resources along with ongoing usability improvements make easy to learn and use.

Why eLearning?

High profile corporations states that eLearning is the second most valuable training method. This is given that eLearning saves businesses at least 50% when they replace traditional instructor-based training with e-Learning. Not to mention that eLearning cuts down instruction time by up to 60%. Here are several important business advantages of eLearning:

Reduced training **costs**

The benefits of cloud-based Learning Management Systems become factors for businesses require cost-effective and flexible training methods.

Offers **accessibility** and **versatility**

Elearning works because all relevant training information is stored in the cloud and employees can access these training resources 24/7 from any type of electronic device.

Rapid **deployment** of content

Use web conferencing feature to rapidly develop and deploy a webinar that focuses on the core skills that need to be cultivated.

Access information **when they need it most**

eLearning materials are stored online so employees can access important resources any time they encounter a difficult situation.

Improved knowledge **retention**

Giving access to interactive, reality-based scenarios, games and assessments enable employees to digest the information more effectively.

Gives employees the opportunity to learn at their own **pace**

Given the opportunity to learn and thoroughly understand what is learned before moving on to the online training course.

Eliminates the need for **on-site** instructors

Cut cost for trainer presence on travel and accommodations.

Quick and convenient training **updates**

Updates are simple and straightforward regarding update company policies and need to inform staff about the changes, can do so without having to rewrite manuals or printed reference guides.

Improve work **productivity** and **performance**

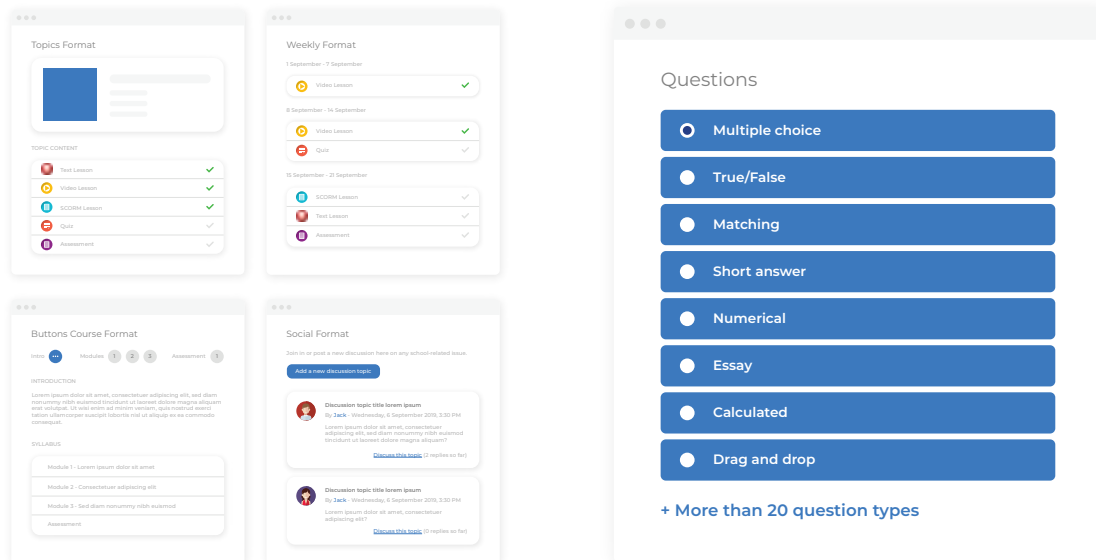

Interactive online training includes video, images and audio enables employees to create an immersive and effective learning environment that motivates and engages the employees.

Reduced employee **turnover**

Using eLearning achieves multiple objectives such as increasing motivation and boosting engagement by instilling greater self-confidence of employees.

LMS Case Studies

Corporate Company

The screenshot displays the eKelas LMS interface. On the left is a green sidebar with navigation links: KOMUNITI, eKELAS, NOTA PADAT, HEBAT EXAM, eKURGU, PERINCANGAN, BLOG, PENCAPAIAN, BANTUAN, and MAKLUMBALAS. The main content area features a user profile for 'Cherrie Sim - Laman Utama'. Below the profile, there are posts from other users, including one about a profile picture change and another about a quiz. On the right, there are sections for 'BERITA TERKINI' (Latest News) featuring a '#KalauNakTahu' eBook promotion, and 'PENGUMUMAN' (Announcements) featuring a 'KERTAS SOALAN UPSR, PT3 & SPM' announcement. The bottom right corner shows a date '23 September 2019' and a user 'jasa'.
